

**Review of Powder Room Solutions Limited
TerraCyclic™ Bio-Bin
‘The Truly Disposal Bin’
For Carbon Footprint Ltd
Product Endorsement
1st July 2008**

Detail of Product

Powder Room Solutions Limited submitted their TerraCyclic™ Bio-Bin, as a product for endorsement by Carbon Footprint Ltd under the premise that the product met one of the three conditions outlined by Carbon Footprint Ltd for approval:

1. The product's carbon emissions have been calculated and offset through either one of our offset programmes or an alternative certified offset provider.
2. The product has a significantly lower carbon footprint compared to similar products currently available on the market
3. By using the product, it will help other people or organisations reduce their carbon emissions

The product submitted for appraisal was the TerraCyclic™ ‘Bio-Bin’, a bio-bin is a sanitary disposal unit with a unique design and compact size.

The product was submitted under condition three for approval, helping other people or organisations to reduce their carbon emissions.

Carbon Footprint Ltd has considered the product endorsement application for the TerraCyclic™ Bio-Bin and the carbon savings stated by Powder Room Solutions Ltd. Carbon Footprint Ltd has accepted the application.
